

STEAMBRACE

Bridging the gender gap in STEM education in Europe

STEAMbrace Newsletter #2: Breaking Boundaries in STEAM Education

Hello **STEAMbrace** Community!

We're thrilled to bring you the latest updates from the **STEAMbrace** project. Our mission remains steadfast: to bridge the gender gap in STEM by integrating the arts into traditional science and technology education, fostering a more inclusive and innovative environment for all.

About STEAMbrace: Bridging the Gender Gap in STEM

Our mission is simple yet bold: **we want to close the gender gap in STEM by unleashing the power of STEAM education**. We're all about empowering the next generation of European innovators (especially women) by breaking down traditional practices and connecting diverse disciplines across the continent. Through our STEAM Alliance for Europe, we're **building a community** where educators, industry leaders, and creative experts come together to make a real difference.

And guess what? We've already hit some exciting milestones! We hosted the very **1st European STEAM Congress** in Gothenburg, inaugurated our new **Headquarters in Zaragoza**, and even received a **special recognition prize at the National STEAM Education Congress**. With endorsements from influential European leaders, these achievements are energizing our journey to transform education and inspire change across the STEAM fields in all of Europe.

Recent Milestones

1st European STEAM Congress in Gothenburg

In February, 2025, we hosted the inaugural European STEAM Congress in Gothenburg, Sweden. The event brought together educators, researchers, policymakers, and industry leaders to collaborate on the future of STEAM education. Highlights included hands-on workshops, student showcases, and insightful discussions on inclusivity and innovation in STEAM fields.

Inauguration of STEAMbrace Headquarters in Etopia, Zaragoza

We're excited to announce the opening of our new Headquarters in Zaragoza, Spain, located within the Etopia Center for Art and Technology. This central hub will serve as the heart of our operations, fostering collaboration among our diverse consortium of experts and partners. The establishment of our headquarters in Zaragoza underscores the city's commitment to becoming a European leader in STEAM education and innovation.
